

Dear EU citizen,

Ten years is a long time, and we have been fighting for EU citizens' rights constantly since 2016. We need your support to continue doing so though!

Over those ten years, one thing has remained constant: whenever our rights have been threatened, challenged or overlooked, people have come together and refused to stay silent.

Behind every event, every campaign and every victory are countless hours spent gathering evidence, supporting individuals, briefing parliamentarians, engaging with decision-makers, raising public awareness and holding the Government to account.

At the3million, we work every day to ensure that the rights guaranteed to EU citizens under the Withdrawal Agreement are fully protected. We also know that the hostile immigration environment affects many communities beyond our own. That is why our work increasingly crosses borders and issues, defending the principle that everyone deserves dignity, fairness and respect.

We have been proud of the successes we have had in ensuring that the rights we fight for are defended. We have succeeded in numerous ways, including appealing against the immigration exemption in data protection law, getting the fee for the EU Settlement Scheme scrapped, and, by securing fundamental changes in the EU Settlement Scheme, protecting hundreds of thousands of pre-settled status holders from losing their residence rights or being unable to move to settled status.

These are not small victories. They are life-changing outcomes for real people.

Yet none of this happened by accident.

Every campaign we run, every report we publish, every meeting we attend and every legal challenge we pursue is only possible because people like you choose to support our work.

That work cannot continue without your support though. The funding environment is becoming ever more challenging, and we know that many more people are struggling with rising prices and the cost of living.

If you value the work that the3million does, please consider making a donation if you can.

Whether it is a one-off contribution or a regular monthly gift, your support helps us continue defending rights, challenging injustice and building a future where everyone can thrive and have an equal voice in society.

Donate today

We know not everyone can afford to contribute financially. If you can't, please support us by reporting problems to us, and telling others about the3million.

If you *are* able to contribute, no matter how small your donation, you will help ensure that we can continue to be there when rights are threatened, when communities need support and when decision-makers need reminding that behind every policy are real people and real lives.

As always, yours in solidarity

Monique
