

Dear EU citizens,

Yesterday, 23rd June, more than 20 of us - the3million staff members and supporters - attended Parliament to speak to MP's about the issues which continue to face EU citizens ten years on from the Brexit vote.

Despite the heat, we had a successful time, meeting with MPs including Olivia Blake, Pete Wishart, Neil Duncan-Jordan and Helen Maguire.

At the3million we are constantly working to ensure that the rights which were promised to EU citizens in the Withdrawal Agreement are fully protected. It goes even further than that though. Hostile immigration policies are affecting so many people, and causing immense harm. Our work crosses borders to ensure that people's lives and rights are respected.

Working with MPs we are able to help shape and inform policy, provide evidence to committees and raise the concerns of individuals on a national level.

Our mass lobby was just one part of our larger work, which includes campaigning, strategic litigation, raising public awareness and cataloguing issues facing people to be able to inform evidence based advocacy.

We know ten years is a long time, believe us we really do. We know that people can become tired and disillusioned. That is one of the reasons why events such as this are so important to show that we are still here, that this is our home, and that our rights are important.

Our work has resulted in massive wins along the way - without it, applying to the EU Settlement Scheme might still cost £65 per person, pre-settled status could have simply expired after five years, and those who had long absences over the COVID years might have found their future in the UK permanently cut short.

We cannot continue this work without your support though, and that is why we have a huge ask. For us to continue working for a future where our rights are respected and protected we need your help.

We know times are tough for many people right now, but if you are able to donate to help us continue our work then you will be making a real difference.

Donate today

As always, yours in solidarity

Monique
